An old gray horse attached to a dilapidated wagon,was driven down Pennsylvania ave-nue cast last evening at 1:30 o'clock by an 11nue cast last evening at 120 o'clock by an Ilyear-oid colored boy so drunk as to have no
control over the horse. Behind him were
seated two men in the same condition as their
driver. A herdic came along, and the dilapidated waron, running against it, was in a
moment deposited in a heap, covering the
three drunken occupants. They crawled out
from beneath the rilins, and when they had
drawn the debris to the curb and had started
the boy off on the horse, Officer Parker, of
the eignith precinct, came in sight, and, as the
men started off on a run, gave chase and succeeded in capturing them. They graw their
hames as Thomas Johnson, of 2011 Fennaylvania avenue, and Chas. J. Smith, of 1310 Massachusetts avenue. They had been off on a lark,
and for their personal annuement had succeeded in making the driver boy drunk. They
stated that the wagon belonged to themselves,
and the horse was hired with the colored boy
in charge. They will be charged with being
drunk and disorderly this morning in the
police court. General Debility.

It is said that when a physician finds nothing particular the matter with his patient he calls the disease General Debility; and that seems to be about the best phrase we can use at the present time to describe the state of trade-it seems to be suffering from general debility; there is no life in it; it is dull, flat, stale, and unprofitable. But, like the doctor, we prescribe a tonic; something stimulating; something to put new life and energy into it, and make things lively once more. We believe that no tonic will so soon bring up the pulse of trade to its regular beat as low prices. We have a few bargains to offer—genuine bargains—and if they do not tone up the trade we shall say that we do not know how to play the physician.
